

### ABSTRACT OF THE DISCLOSURE

**[0072]** In one embodiment, detailed information concerning items placed by a user in a virtual shopping cart hosted by a merchant web site is received from a third party shopping cart application. The detailed information is sent by the third party shopping cart application in response to a user request to proceed with a payment for the items. Once the detailed information is received, the user is presented with one or more user interfaces facilitating processing of the payment. The user interfaces allow the user to view the content of the virtual shopping cart.
